WORK EXPERIENCE

Technical Project Manager

Syntactics Inc. | August 2025 - August 2026

- Managed a portfolio of 7 projects, including 2 custom software initiatives and approximately 5 web development projects, coordinating activities from planning through testing, deployment, and client handover.
- Oversaw 2 long-term custom software projects, a mobile eCommerce application and a custom payroll management system, each typically spanning approximately 6 months.
- Coordinated cross-functional teams comprising 1–5 developers, a QA specialist, and a web designer, with team composition varying according to project requirements.
- Developed and tracked project timelines, milestones, task assignments, and deliverables to maintain visibility into development progress and project dependencies.
- Applied hands-on web development knowledge to clarify technical requirements, address development challenges, and facilitate communication between technical teams and stakeholders.

Web Developer

Syntactics Inc. | August 2022 - August 2026

- Developed and maintained 20+ business websites across multiple CMS and eCommerce platforms, adapting solutions to diverse client requirements and business objectives.
- Customized WordPress themes, plugins, and website functionality to deliver tailored designs and features.
- Worked with multiple platforms, including WordPress, Shopify, and PrestaShop, to support website development, customization, and maintenance.
- Implemented SEO practices and utilized Google Analytics to support website visibility and performance monitoring.
- Performed website updates, content management, technical troubleshooting, and ongoing maintenance to maintain website functionality and quality.
- Adapted to evolving project requirements by applying new web technologies, development techniques, and CMS capabilities.

Continued hands-on development responsibilities alongside Technical Project Manager duties from August 2025.

Web Development Intern

Syntactics Inc. | April 2022 - June 2022

- Updated and maintained WordPress websites, including content, typography, styling, and page elements.
- Assisted in improving website presentation, content consistency, and page formatting.
- Developed and organized a database for an internal system in collaboration with fellow interns.
- Gained practical experience in WordPress development, database management, web content administration, and collaborative software development.

KEY PROJECTS & ACHIEVEMENTS

CMS & eCommerce Website Development
